

## **REMARKS**

The Examiner's indication of allowable subject matter in Claims 3, 5-8, 10-15 and allowance of Claims 16-23 is appreciated. Claims 3, 5, 7, 8, 9, 10, and 14 are amended into independent form for allowance. Claim 9 is corrected for indefiniteness, and in view of the previous indication of allowability, is also amended into independent form for allowance. Claim 4 is made dependent on Claim 3, and Claim 6 on Claim 5. Claims 11-13 continue to depend from allowable Claim 10, and Claim 15 from Claim 14. Claims 24-30 are amended to depend from allowed Claim 16. Therefore, Claims 3-30 are now deemed to be in condition for allowance.

Claim 1 is further amended to recite the variable-stroke reciprocation of the bulging contour as also presented in allowable Claim 7, but without specifically reciting the adaptation as a female toy. It also incorporates the electronic controls of Claim 2 for driving the variable-stroke reciprocating function, and Claim 2 is cancelled. Since Claim 1 now claims the function found to be allowable in Claim 7, the examiner's allowance thereof is requested.

For the 9 independent claims presented after the Amendment, which is 5 more than the previous number of 4 paid for, our authorization to charge our credit card account for the \$525 additional claim fees (small entity) is herewith enclosed.
